

## The Ancient History of India, an Archeological View

The current version of ancient history of India has no scientific basis. It is derived mostly from the fictional stories invented by the Greek colonialists. Idolatry was a Greek invention. In India, before the Greeks, there was no archeological evidence of Brahmin, Gods, Temples, or Idolatry.

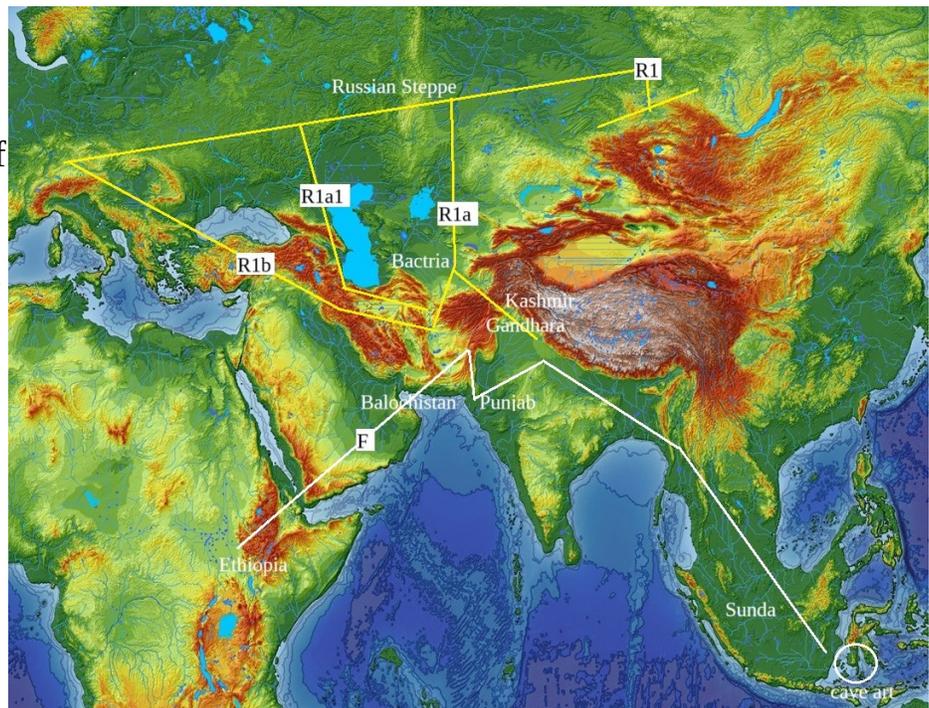

An analysis of DNA samples revealed that India has only two kinds of people: (1) DNA F the native Hindu, and (2) DNA R1 the recent European immigrants. The F lived only in the peninsular India, to the south of Tropic of Cancer, for over 60,000 years. They were warm climate people who lived only along rainwater rivers. The R1 were cold climate people who evolved in Europe only after the glacial melt. They lived only to the north of Tropic of Cancer. They moved south to the warm climate only 4,000 years ago.

The F avoided the Himalayas and its silt laden rivers like the plague. The R1 lived only along the Himalayas and the Indus river and its tributaries called Gandhara. Before the R1 moved in, there were no people in Kashmir or Gandhara.

The map shows the landscape that existed before the glacial melt of 20,000 years ago. Much of the world was covered with glaciers and the seawater was far below the current levels.

The F voluntarily moved out of Ethiopia (Africa) 100,000 years ago to reach India. They lived only along the white line.

The R1 moved from Europe to Gandhara only 4,000 years ago. The R1 were split into three groups: R1a (Eastern Europeans), R1a1 (Persians), and R1b (Greeks). Bactria was the only port of entry to Kashmir and Gandhara.

The R1a moved to Gandhara 4,000 years ago. Around 500 BCE, some Persians (R1a1) were expelled to Kashmir for their unethical and immoral behavior. They were known as Brahmin. The Greeks moved to Kashmir only after Alexander (300 BCE). The Greeks and Brahmin moved to Gandhara only after 200 CE.

Idolatry was a Greek invention. The Greeks transformed idolatry into a temple business to rob people. They invented the concept of a Temple. They promoted local popular heroes to god status to be housed in temples to collect offerings (tribute). They discovered the unethical Persians and hired them to invent fictional stories of warmongering gods and demons with supernatural powers.

The Vedas, Puranas, Ramayana, and Mahabharata were fictional stories financed by the Greeks and invented by the unethical Persians to rob the R1a in Gandhara. The R1a were Europeans. They were warmongers constantly at war to rob each other to get rich. It was their culture. All the Greek financed fiction was the R1a culture to appeal to them.

The F never lived in Gandhara. They were logic based compassionate peace loving people who never had a war or god.

The Greeks discovered that there was a huge Hindu population to the east of the Satpura Ridge that did not believe in war or god. They moved in around 500 CE to the Patna city (Bihar) to market their fictional gods to rob the Hindu people. They actively promoted the recent Greek Gandhara rubbish as the real ancient Hindu history. They robbed Hindu blind. They deliberately and totally destroyed the Hindu cultures of 60,000 years. They actively promoted the Gandhara culture as Hindu culture.

A scientific analysis revealed that of the extant versions 50% of Ramayana, 80% of Mahabharata, 90% of Rig Veda, and 100% of Yajur Veda were Greek rubbish.

The Greek rubbish was a collection of non-verifiable and nonsensical statements that was reduced to ashes when exposed to logic.

In the Ramayana, Rama's father ruled for thousands of years before reluctantly giving up reign. Rama ruled for 11,000 years. People in the Ramayana routinely lived for thousands of years. Anyone, with critical thinking skills, would realize that no human ever lived much over 100 years. Life expectancy of thousands of years is sufficient to prove that it was rubbish.

In the Ramayana, a Brahmin Muni used his supernatural powers to intentionally produce a baby, Ravana, with ten heads. Ravana was a Brahmin child with ten heads. The grotesque unnatural Ravana was Greek rubbish.

The God Gopala-Krishna was invented in the fictional Bhagavata Purana (500 CE). The God Radha-Krishna was invented in the fictional Brahma Vivarta Purana (700 CE). Stories of Krishna as a miracle maker were in high demand. A compilation of all the fictional stories of Krishna was called the Harivamsa Purana. It was a part of the epic Mahabharata. Gods performing miracles on demand was Greek rubbish.

The original Rig Veda was a textbook on logic at Patna Hindu University. It was trashed to a worship manual of fictional Persian gods of Zend Avesta. It was Greek rubbish.

The original Bhagavad Gita was a treatise on Hindu logic called Sankhya. It invented the Hindu Scientific Method, now called Logic of Hypothesis Testing. It was the foundation of modern science of Newton and Einstein. It was trashed to promote idolatry. It was Greek rubbish.

Hindu lived only in the Tropical Zone. They voluntarily left Ethiopia (Africa) 100,000 years ago. They had nothing to do with glaciers, Ice Age, or Stone Age. They had nothing to do with the Europe Homo Sapiens, the Gandhara people. They never lived in the Himalayas or Gandhara. They never had a war or god.

All the stories of warmongering gods and demons with supernatural powers were the Greek rubbish. They were the Gandhara culture, not Hindu culture.
