

The Hindu Civilization, an Archeological View

The original Hindu civilization (Hinduism) was a logic-based peace-loving culture that existed for sixty thousand years as a unique category of humans. They were the native Indians who lived only in the peninsular India, to the south of Delhi. They were democratic republics with open borders. They never had a king (warlord). They had only an elected administrator called the Rajan. The Rajan was a custodian of logic, a professor. Hindu were visionaries, logicians, entrepreneurs, skilled technicians, and engineers. Peace and prosperity with fair trade was their political philosophy. They voluntarily left Africa, sixty thousand years ago, to make India their home. They had nothing to do with Africa or the Africans. They respected other peoples' rights and property. They were compassionate and helped each other as one giant family. They never had a war or god in sixty thousand years.

The original Hindu civilization is now lost. It was deliberately and totally destroyed by the Greeks (Europeans) who entered India only recently. Culturally, Europeans were the exact opposite of Hindu. Europeans evolved as a category of humans only six thousand years ago, as a warmongering culture who were constantly at war to rob each other. Getting rich by robbing other people was their political philosophy. They invented war and god, now called Brahminism, to rob each other.

Brahminism (war and god) was the trademark of the warmongering Europeans who deliberately destroyed all other civilizations.

Hinduism never had war or god. It was a logic-based peace-loving culture.

Brahminism (Europe) was the exact opposite of Hinduism (India).

What is currently known as Hinduism is in fact Brahminism (war and god).

Brahminism is masquerading as Hinduism. The recent Greeks in India, deliberately replaced Hinduism with Brahminism to destroy Hindu who did not believe in war or god. The Greeks believed that they were chosen by the gods to destroy all the humans who did not believe in god. They looted Hindu in the name of god. They believed that it was the god's will to destroy the logic-based Hinduism. They glorified themselves as the messengers of god to liberate the earth from the nonbelievers.

Persians (Europeans) belonged to the same category of humans as the Greeks. Brahmin were a subgroup of Persians. They were delusional, and believed that they acquired supernatural powers through meditation (tapas). They were considered uncivilized and expelled to Kashmir. Brahmin lived only in Kashmir as refugees in segregated quarters. They were insignificant in number, functionally social outcasts.

Greeks occupied Persia and Kashmir around 200 BCE, after Alexander. They discovered the delusional refugees in Kashmir who believed in supernatural powers. The Greeks in Kashmir invented a novel way to rob people without the high cost of a standing army. They invented the concepts of Idolatry and Brahminism.

The Greeks invented the concept of Temple as a tax collection office. They promoted local popular heroes to god status to be housed in temples. They paid the Kashmir refugees to invent fictional stories of gods with supernatural powers to mesmerize the locals to visit the temples and pay their tribute (offerings) on a regular basis.

The Greek scam to rob people was called Brahminism. The Kashmir refugees never had intellect or logic. They were the Greek mouthpieces. They translated the Greek language to local dialects.

The Greeks invested in temples as a business. It was a highly profitable business. Profit margin was proportional to the size of the temple.

Hinduism was logic-based. Hindu had a University devoted to logic along the Ghaghara river, where the four tributaries met. The original Rig Veda, Upanishads, Brahma Sutra, and Bhagavad Gita were textbooks on logic at the University. Vasudeva Krishna, Siddhartha, Mahavira, and Ajatashatru were the distinguished professors of the University. They were great logicians who invented the Hindu Scientific Method.

Hindu never had a war or god. They had only books on logic. They never had any sacred texts. All knowledge was subject to logical scrutiny, nothing was sacred. The original Rig Veda and Bhagavad Gita were textbooks on logic, not sacred texts.

Brahminism, worship of warmongering gods with supernatural powers, was invented by the Greeks in Kashmir to destroy the Hindu culture that did not believe in war or god.

The Greeks found the textbooks on logic at the Hindu University an existential threat to their temple business. They paid the delusional Kashmir refugees to vandalize all the textbooks at the University to worship manuals of fictional gods with supernatural

powers. The Greek financed vandalized versions were actively promoted as the sacred texts of Hindu of antiquity. Hindu never had a war or god in sixty thousand years.

The Greeks paid the delusional Kashmir refugees to systematically trash the logic-based Hinduism to ignorance-based Brahminism. Sixty thousand years of logic-based peace-loving Hindu civilization was totally wiped out in a few decades. It was a state funded undertaking.

Brahminism was the plague invented by the Greeks that wiped out Hinduism. Brahminism is masquerading as Hinduism.

Genetically, Hindu are the DNA F, and Greeks and Persians are the DNA R1. The F voluntarily moved to India, sixty thousand years ago, in pursuit of the dependable perennial rainwater. The R1 were born in Europe six thousand years ago. They entered India two thousand years ago. Getting rich by robbing other people was their political philosophy.
