

Indian History: An Archeological View *by Potluri Rao In Seattle ©2018 (CC BY 4.0)*

The current version of Indian history was written by European historians who were ignorant of Hindu history; it was the history of the warmongering European immigrants who moved to India 4,000 years ago. Europeans were the DNA R1.

Hindus (DNA F) lived in Peninsular India for over 60,000 years. They were a highly advanced, logic-based civilization; they never had a war or god and lived in peace and tranquility. Hindus invented a system of logic called the Logic of Hypothesis Testing; it was the exact opposite of Aristotle's logic. The Hindu logic was incomprehensible to the European immigrants. The immigrants deliberately destroyed the ancient Hindu logic and civilization. They invented a synthetic language called Sanskrit as a mixture of only the Grandhika of Hindus and the Avestan of South Bactria (Avesta).

From a logical perspective, Indian history may be separated into three periods.

Hindu History: 60,000 BCE to 2,000 BCE

DNA F moved from Somalia to Gujarat in search of perennial rainwater resources. In Gujarat they were subdivided into the L, H, J2b, and O and spanned Peninsular India.

European Immigrants: 2,000 BCE to 200 CE

Some Eastern Europeans (DNA R1a) moved to North Bactria around 2,000 BCE. Some of them moved south to the Indus River area near Pakistan; they were called Sindhus. The warmongering people of the fictional Sanskrit epic Mahabharata were Sindhus (R1a), not Hindus (F). Hindus never lived along the current Indus or the Himalayas.

Greek Colonialists: 200 CE to the Present

Greeks discovered the unethical and immoral Deva people (DNA R1a1) of South Bactria (Avesta), who were kicked out of Avesta to Kashmir by Xerxes for robbing Avestans with fictional rituals called Yajna to market their fictional gods Vishnu, Shiva, and Indra as snake oil. The Greeks renamed Devas as Brahmin with the newly invented synthetic Sanskrit as their language to conceal their scandalous Avestan past. All the Sanskrit literature was pure fiction invented by the Greeks and their Brahmin stooges to deliberately destroy the ancient Hindu civilization and logic; it was reduced to ashes when tossed in the fire of Hindu logic of hypothesis testing.
